Overall evaluation of Teaching Fellow *Scale: 1 = Poor, 7 = Excellent*	6.50	6.50

Qualitative

The TAs were angels on our shoulders!!! Thanks for helping us through some difficult assignments. It is hard work being a TA and these folks deserve a medal!
I am not sure who is doing the grading for the courses, but the grading and feedback is widely inconsistent and in some cases nonexistent. Never clear on when something is going to be graded or if it will be graded at all. Premodule and postmodule assignments for 1 and 2 in some courses are not graded and we are already beginning module 3. In some courses just provided a grade with no feedback and the assignments still say submitted and have never been returned. This is general feedback and not sure where to put it and not necessarily pertaining to the TAs listed here.
Great TAs.
I really wish there would/could have been TA information sessions in both the pre- and post-module for these courses. It would have been very helpful.
Very nice and supportive, thank you!!
Apostolos responses were brief and limited in the help they provided.
Apostolos Filippas was extremely helpful in providing guidance during the premodule and post module. He was available over email, Google hangouts and open to meeting at the school. He responded to my emails in a timely manner even when he was traveling.
We bombarded Apostolos with questions and yet he never failed to respond quickly and clearly.
Apostolos very open.
Apostolas Filipas was great!
